

Wednesday 29th April

Dear Parents and Carers,

After reviewing our online learning for the younger children in school (Reception and Year 1) we have decided to upload learning activities on our Tapestry platform for you and your children to access together.

From Monday 4th May, we will be uploading a daily phonics/reading activity along with one other daily activity. The activities will be uploaded at 9am each day, Monday to Friday. We will try our best to offer a range of stimuli for these activities, some may be online, some may be book based and others may require a pen and paper. We ask that you encourage your children to take part in activities that you have the resources to support at home.

In order to access these activities, you will need to log on to your child's account through your **internet browser**, rather than the app. This will require you to log in using your email address and password. If you require any support with accessing your account in this way, please contact the office office@stmichaelschurchool.co.uk who will forward your enquiry onto the relevant team member.

Once your child has completed these activities, you can publish your own observations to show us the activities that they have been up to.

Kind regards,

Mrs Daulton and the Lower-School team.
