

Wednesday 18th March 2020

Dear Parents/Carers and Pupils,

We are trying to make logging on to external apps easier for the children at St Michael's Church School. We have bought into a new single sign-in solution called Wonde.

Today, the children are coming home with their emoji passwords.

Step One: Open a web page and type in www.wonde.com on any internet enabled device.

Step Two: Once they are on the website; they need to click on the link that says log in.

Step Three: They need to click on student.

Step Four: They need to find our school – Saint Michael CofE Primary School (Voluntary Aided)

Step Five: Click on emoji login and enter their unique login.

Step Six: Utilise the apps on their Dashboard.

Presently, the apps the children should be using are Mathletics and Purple Mash, however I will be adding more to their dashboards over the next few days, so please keep logging in to make sure you have full access.

As with any new tool, there may be some kinks to iron out. If you find that your child cannot log in to one of the apps, please can you contact me directly and I will check their account and passwords and confirm when this has been done.

I hope you find this much easier than having multiple passwords sent home in books.

Kind regards

Miss R Cotsell
